Reflection

1. What were the most significant insights you gained about solid waste management, recycling, or diversion?
2. How did this training challenge or support your municipalities current solid waste and recycling practices?

3. How can you share the information you learned with your team, leadership or residents?
4. What 2-3 actionable steps will you take within the next year to apply what you learned?
5. Is there anything else you would like to add?
